

Dear Student,

Are you interested in learning about the criminal justice system in England or exploring the statistics of crime rate occurrences and repeat offenders? Then, join Dr. Sharon Plotkin and I on an AMAZING Study Abroad Program in England (London, Nottingham and Derby) - Following the Global Pathway to Criminal Justice Using Statistics. To join our study abroad program, students do not need to be Criminal Justice majors. For example, International Relations or International Business majors might benefit from knowing the laws in other countries, like those in England. Also, Psychology majors might want to specialize in Criminal Psychology and by understanding the criminal justice system in another country might be of good use in their careers.

Students who participate are only required to enroll in only 1 of the 2 courses offered (either CCJ1020: Introduction to Criminal Justice OR MGF1106: Math for Liberal Arts I).

Some of the sites that we will be visiting in England are:

The Crown Court

Chatsworth House

Westminster Walking Tour

University Forensic House

University College London where Karl Pearson founded the first university statistics department

The Winton Gallery

Crime Museum

National Justice Museum

Tour of Jack the Ripper

See attached tentative itinerary and Click on VIDEO Link below explaining in detail about this study abroad program.

[2023 Following The Global Pathway To Criminal Justice Using Statistics Final Video 1.mp4](#)

This program will take place in Summer A 2023, and you might be eligible for financial aid. To learn more, please visit www.mdc.edu/studyabroad

Also, please, use our Study Abroad Information Request form (by clicking the link below) to collect your contact information to allow us to keep all the student data centralized and we can notify you right away once the application opens.
